Experience

Software Engineer (Product) | Rigado | Oct 2016 – Feb 2020

- Continuously deployed new features to customer APIs and CLI tools
- Worked with the Customer Success and Solutions Engineering teams to provide helpful and robust admin tools
- Built a message archive and retrieval system powered by AWS
- Built and maintained an in-depth and customer-facing documentation portal
- Helped the Support team to diagnose and solve customer issues
- Maintained internal processes for writing, reviewing, and deploying features

Software Engineer | Uncorked Studios | Nov 2013 – Oct 2015

- Collaborated with designers and producers to come up with creative solutions to left-field problems
- Practiced self-management with high rate of task-switching between customer needs and internal agency projects
- Developed and demonstrated prototype and early versions of web and mobile applications
- Engineered wood, metal, and electronics to provide proof-of-concept for physical products

Interface Engineer | Upstart Labs | Jan 2012 – Oct 2013

- Jumped head-first into app development as an entry-level programmer, complete with learning languages and frameworks on the job, as well as attending relevant conferences
- Worked closely with early-stage startups and in-house designers to build—and rebuild—prototypes and MVPs for web and iOS

Owner, Designer, Craftsman | Stoic Bear Woodworks, LLC | Jan 2012 – present

- Designing and building custom furniture
 - Blending Mid-Century Modern, Art Deco, and Euclidean Geometry to create unique and functional forms
 - Constantly turning things upside-down to see if they look better that way
